2. [NABP/AACP District Five Individual Study Grant](#)
3. [Pharmacists-at-Risk Seeks Volunteers](#)
4. [Alert Database Now Available](#)
5. [Upcoming Professional Development Opportunities](#)

### Naloxone List Update

In keeping with our mandate to protect the public, the College compiled a list based on input from pharmacy managers of [Pharmacies Carrying Naloxone Kits in Manitoba](#) for the use of healthcare providers and the public.

If your pharmacy carries naloxone kits and provides education and training on the use of naloxone in an emergency, we invite your pharmacy manager to provide the College with your pharmacy's

- name,
- address, and
- phone number.

You can email the above information to [rcarlson@cphm.ca](mailto:rcarlson@cphm.ca) with the subject line **Naloxone Kits**. The College will update the list on a regular basis.

The College encourages all pharmacies to carry and dispense naloxone kits to provide as many people as possible access to the drug. Please note that pharmacists selling naloxone must comply with the [Guidelines for Pharmacists Selling Naloxone as a Schedule II Drug](#).

The College will not post information about price or availability, but will instead advise people to contact the pharmacy directly for this information.

### NABP/AACP District Five Individual Study Grant

The National Association of Boards of Pharmacy (NABP)/American Association of Colleges of Pharmacy (AACCP) (US) District V has announced that the study grant competition is now open. The

### Professional Development Opportunities

University of Manitoba College of Pharmacy and the Max Rady College of Medicine present:

[The MEDS Conference: Medications, Evidence, and Decision Support](#)

Saturday, February 11, 2017

University of Manitoba College of Pharmacy presents:

[Administration of Injections Practical Skills Workshop](#)

Saturday, January 14, 2017

[Opioid Replacement Therapy: An Introduction to Clinical Practice](#)

COURSE FULL! If you are interested in taking this program at a future date, please contact Karen Sorenson at [ksorenson@cpsm.mb.ca](mailto:ksorenson@cpsm.mb.ca). Additional dates will be offered to satisfy demand for the program. \_

College of Pharmacists of Manitoba is a longstanding member of the District V of NABP/AACP.

District V of NABP/AACP will provide grant money, not to exceed US\$3,000 per grant, to award two grants within the District to study topics which benefit students, pharmacy education, or pharmacy practice. Topics of interest to the Boards and Colleges in District V are suggested, but researchers will not be limited to these topics. The grant recipients or designees will present their report or findings at the District V Annual Meeting in the year following the award.

The **deadline for submissions is March 31, 2016**. For more information, please see the [study grant announcement](#).

---

## Pharmacists-at-Risk Seeks Volunteers

The Manitoba Pharmacists-at-Risk program is a voluntary, confidential, non-punitive, peer support program that enables pharmacists to seek help with or achieve resolution of a personal problem. The Pharmacists-at-Risk program operates independently from the College and assistance is provided by a volunteer committee of pharmacists.

The Pharmacists-at-Risk Committee is currently seeking additional compassionate pharmacist volunteers to help them support other members of the pharmacy profession. Committee members help pharmacists through personal and professional crises such as marital unrest, financial difficulty, health problems including alcohol and substance abuse issues.

If you are a pharmacist interested in providing support to your fellow pharmacists, please contact Penny Shefrin by email at [pshefrin@hotmail.com](mailto:pshefrin@hotmail.com).

For more information, please visit the [Pharmacists-at-Risk](#) website.

---

## Alert Database Now Available

The College periodically sends email and faxed alerts to pharmacy managers. The College is pleased to now provide an online archive of these alerts for prescription pad losses, forgeries, and other urgent College communications to pharmacy managers. Pharmacy managers can access past alert communications on the College website through their pharmacy manager login. The database is located under the 'Library' heading. This new feature will provide managers opening new pharmacies with a copy of recent fraud risks in their community.
