

ACS Network

Heart Attack Day

ACS Network's Heart Attack Day is a dynamic initiative tailored to arm healthcare professionals with the necessary tools and knowledge needed to break through systemic barriers and deliver the best care for heart attack patients.

Whether you're a physician, nurse, pharmacist, allied health professional, cardiology technologist, paramedic, or educator, this is your chance to connect with experts, expand your skill set, and ensure your patients get the timely, top-tier care they deserve.

Don't miss out on this must-attend event, designed to elevate heart attack care in Manitoba.

MAY 2, 2025
0830 - 1645
Online only!

** Paid registration also provides access to the recording and resources for up to 60 days past the event.*
