LEARNING OBJECTIVES:

After attending this presentation participants will be able to:

- Describe the elements and value of the College's continuous quality improvement program - Safety IQ for community pharmacies in Manitoba
- Identify strategies to prepare for future implementation of Safety IQ within your community pharmacy
- Consider new resources and tools to evaluate and improve the safety culture in your pharmacy practice
- Reflect on the value of incident data and the use of analytical tools to improve patient safety in your pharmacy practice
- Implement new approaches to improve pharmacy-patient communication and disclosure of medication incidents in your pharmacy practice

Safety.
Improvement.
Quality.
