December 21, 2020

Dear Pharmacists,

Approximately two months ago you were sent an email to request your participation in a confidential online survey being sent to all licensed/registered Physicians, Surgeons, Registered Nurses, Nurse Practitioners, Physiotherapists, and Pharmacists in Manitoba.

In order to capture the input of more healthcare providers, we have decided to extend the survey until January 29<sup>th</sup>, 2021. **If you have already completed and submitted the survey, please accept our sincere thanks.**

If you have not yet completed the survey, we hope that you will be willing to share your experiences about how health services are being delivered to refugees in Manitoba. More specifically, we would like to learn more about health care providers' current knowledge on interprofessional collaborative health care services to refugees. Findings of this study will inform future projects on the delivery of refugee health.

This study is being conducted jointly by the Colleges of Nursing, Pharmacy, Rehabilitation Sciences and Medicine at the University of Manitoba. This research has been approved by the Education/Nursing Research Ethics Board at the University of Manitoba.

We are inviting all licensed health professionals in medicine, nursing, pharmacy and physiotherapy to participate in this study. The survey will take approximately 20 minutes to complete, and no personal identifying information will be collected.

If you are interested in learning more about this study and would like to complete the survey, please click on the following link to learn more and consent to participate: [https://umnursing.ca1.qualtrics.com/jfe/form/SV\\_9tcxyQ5N4R7DZk1](https://umnursing.ca1.qualtrics.com/jfe/form/SV_9tcxyQ5N4R7DZk1).

If you have any questions, comments or concerns that you wish to bring to the Principal Investigator, you can email Dr. Lynn Scruby at [Lynn.Scruby@umanitoba.ca](mailto:Lynn.Scruby@umanitoba.ca) at any time.

Thank you for your interest and participation in this study.

Sincerely,

Dr. Lynn Scruby, RN, PhD  
Principal Investigator  
Assistant Professor  
College of Nursing, RFHS
