Correspondence sent to the Minister of Health and Seniors Care and Minister of Mental Health, Wellness and Recovery regarding implementation of federal exemptions under subsection 56(1) of the Controlled Drugs and Substances Act (CDSA) and its Regulations was circulated to Council in advance of the meeting for information. Health Canada recently announced the exemptions that maintain Canadians’ access to narcotic and controlled substances will remain in effect until September 30, 2026, demonstrating the ongoing need to prevent delays in patient care as a result of the COVID-19 pandemic. It has not been implemented in Manitoba to date due primarily to provincial legislative barriers. At their most recent meeting, Executive Committee explored options to mitigate the misunderstanding that continues to exist among registrants as to their obligation to hold PLI and what coverage meets the criteria. An article was recently included in the Friday Five, with the requirements and what does not meet the requirements clearly outlined. A written response from President Wendy Clark will be sent to Mr. Schroeder.

That the feedback summary of the consultation on the proposed amendment to the Pharmaceutical Regulation regarding pharmacist prescribing for uncomplicated cystitis, along with Council recommendations, be presented to the Minister of Health and Seniors Care.
