

Respectful Communication Statement

The College of Pharmacists of Manitoba (College) strives to provide an environment and workplace where all individuals are provided the best opportunity to interact, work, learn and conduct business. We expect this space (our workplace) to be free from violence including threats, bullying and harassment. Such behavior will not be tolerated and breaches may be reported to the appropriate authority.

We expect and require courteous and professional communication that respects the dignity of all individuals, at all times.

Accordingly, if an individual has exhibited behavior inconsistent with the expectations in this statement, the College reserves the right to limit future interactions to written correspondence only.

Thank you for adhering to this statement.
