<b>Policy Type:</b> Administration of the Act	<b>Policy No:</b> AP09	
<b>Effective Date:</b> December 5, 2025	<b>Last Approval/Revision Date:</b> December 5, 2025	<b>Policy Review Frequency:</b> Every 5 years

## Purpose:

This policy sets out the registration and licensing requirements for applicants from select international jurisdictions that have substantially similar pharmacy education, entry-to-practice competence, scope of practice, and regulatory oversight as those of the College of Pharmacists of Manitoba (CPhM). It provides an expedited pathway for those applicants by waiving initial registration and licensing requirements beyond those required of an applicant from another Canadian jurisdiction. All other legislated provisions and requirements remain and continue to serve as important safeguards in the public interest.

## Application:

This policy applies to individuals who seek registration and licensure in Manitoba who:

- currently hold an active pharmacist license, with no conditions, restrictions, or outstanding complaints, discipline, or remedial process in any jurisdiction listed in Schedule A, and
- has practiced for at least 600 hours in pharmacy practice, or graduated from their pharmacy education program, in the three years preceding their application.
