Continuing Education/Professional Development in Aging Survey

We are inviting you to participate in a survey about continuing education and professional development in aging. The goal of the survey is to gain a picture of training/learning needs of those working with older adults and to determine how best to provide possible learning opportunities at the University of Manitoba.

You are being invited to complete the online survey because you and/or your organization work with and connect with older adults. The survey asks you to indicate your level of interest in workshops or training events by skill area, as well as specify topics of interest. The survey will take about 20 minutes to complete.

Please feel free to share this email with colleagues who work with older adults (or those who might want to) and might be interested in participating in the survey.

If you would like to participate, please click on the link below:

<https://www.surveymonkey.com/r/V7Q98H3>.

If you would like more information about the survey or if you have any questions, please send us an email at nicole.dunn@umanitoba.ca

This study is being conducted by the Centre on Aging at the University of Manitoba. It has been approved by the University's Research Ethics Board (REB 1). They can be contacted at humanethics@umanitoba.ca, if you have any issues with this study.

The University of Manitoba campuses are located on original lands of Anishinaabeg, Cree, Oji-Cree, Dakota and Dene peoples, and on the homeland of the Métis Nation. We respect the Treaties that were made on these territories, we acknowledge the harms and mistakes of the past, and we dedicate ourselves to move forward in partnership with Indigenous communities in a spirit of reconciliation and collaboration.
